

To Destroy Moles.

Shooting them is recommended by one who has tried it as follows: "Be out early in the morning with the gun when they are busy rooting, steal quietly to the place (up wind), get the gun almost perpendicular over them-muzzle about a foot or a foot and a half from the ground, consistent with safety-watch until they commence to root, then "blaze away." Dig down afterward, ten to one a mole is there, as dead as a herring, although he has been six or eight inches below the surface.

Large Fowls.

Persons desirous of obtainiing large fowls, equally good as layers of large eggs, and also combining good table qualities with early maturity, and being perfectly hardy, should cross the Dorking hen with a small Brahma cock. The cross between the Dorkings and dark Brahmas is also good for the table, being so easily raised, but their eggs are small.

Houses for Farm Laborers.

Many of our best farmers are coming to the conclusion that it does not pay to keep their homes as boarding-houses for their farm hands, and are erecting houses in which the men san board with their own families, thus releasing the farmer's wife from much of her proverbial drudgery. It works well in other kinds of business, why not in farming?

Hiving Bees-

A bee-keeper gives the following plan to prevent a swarm of bees from getting far away from the hive, with the statement that after ten years' experience he has never known it to fail once. As soon as they show the first symptons of swarming, stop up most of the outlets of the hive so as to force them to be considerable time coming out. The swarm being made up in part of young bees, many of them cannot fly well, and as nothing can be done by the swarm until they are out, they fly about in the air; by prolonging their exit the feeble ones become tired, they alight to rearrange their journey. If they can leave the old hive ail at once, they care very little about alighting.

Summer Blankets for Horses.

Blanketing horses in Summer has now become an acknowledged necessity, and light blankets are now an important portion of a harness maker's stock. The materials used for these are brown and bleached linen, scrims, flannel and light brown duck. Muslin sheets are also used, but these, as well as those made of duck, are not popular. Linen and flannel are the favorite goods; they cost more, but are durable and look well: twilled braid is used for the salary bill from \$5,000 to the steamer looking like a loaf of cake Fruit to taste, mixed with the batter before cooking.

Democracy of ADOPTED IN CONVENTION

COLUMBUS, AUGUST, 6, 1873.

Resolved, That the Democratic party seeks to revive no dead issues, but stands by its principles, which are suited to all times and circumstances; it supports the Federal Government in all its constitutional authority, and opposes audification and secession. It defends the reserved rights of the States and the people, and opposes centralization that would impair or destroy them. In order to maintain and preserve these rights it insists upon the strict construction of the Federal Constitution; it resists all attempts of one department of the Government to usurp or destroy the constitutional rights or independence of other departments; it opposes all interference by law with private affairs of business of men, not required by the public peace of safety and absente the recent in the description. stroy the constitutional rights or independence of other departments; it opposes all interference by law with private adalrs of business of men, not required by the public peace of safety, and advocates the greatest individual liberty consistent with public order; it believes in the capacity of the people for self-government, and opposes all property qualifications as conditions to the right of suffrage or cligibility to hold offect; it favors liberal laws for the naturalization of foreigners; it insist upon equal and exact justice to all mon; it opposes all monopolies, and denies that it is within the province of the Government to legislation for the benefit of parti-alar classes at the expense and to the detriment of the rest of the community; it therefore opposes the system by which a large portion of the profit-producing wealth of the country is exempted from taxation, and demands that all constitutional means be used to remedy this injustice; it fusias that our tariff laws should be framed with a view to revenue, and not to tax the community for the benefit of particular industries; it recognizes the evils of an irrecteemable currency, but insists that in the return to specie payments; care shall be taken not to seriously disturb. The buggiess of the country, or unjustly injure the debtor class; it appreciates the benefits conferred by railroads, but opposes all conferred by railroads obstropposes all conferred by railroads over labor; it requires honesty and economy in every department of Government, Federal or State, and it condemns corruption, whoever may be the guilty parties. It is in its very nature, and as a necessary result of its principles, a party of progress, and support, and measures of reform and improvement that are sanctioned by justice and commended by sound practical wisdom.

Resolved, That the wealth of the country is the product of its labor, and the best use of capital is that gives employment and liberal wages to the producing classes; hence every just measure that tends to protec

abor Congress at Cleveland, favoring arbiration and co-operation.

Resolved, That, although always constituing a large majority of the American people,
griculturists have never demanded of Govrnment, State or Federal, any special privilege; have never infested Halls of Congress
r Legislatures with lobbyists and rings, but,
a the contrary, have suffered under discrimauting and unjust laws until forbearance has
eased to be a virtue; we hereby pledge our
incere and honest efforts to obtain for them
sdress of grievances and equal and exact jus-

ice.

Resolved, That the public lands should be accredly reserved for actual settlers, who will livell upon and cultivate them, and that we will continue to denounce and opposed, as we save always denounced and opposed, all gifts of such lands by the Government to incorportated companies. anpanies.

Resoleed, That the greatest danger to free institutions is the wide-spread corruption that threatens utter destruction to public virtue; when Credit Mobilier frands pass unpunished; when those engaged in them are elevated to high official position; when seats in the Federal Senate are notoriously purchased; when vast sums of money are corruptly employed in popular elections; when an army of office-holders with the sanction of the Government use their official influence to control elections; when bribery of Custom-house officials is an established usage; when rings of plunderers are the recipients of millions of money appropriated for public use; when official defalcations are of such frequent occurrence as searcely to excite attention; when Presidential pardons relieve defaulters from deserved punishment, and Presidential appointments reward Credit Mobilier and salary-grabbing Congressmen, and when Congressional investigation is generally a white-washing affair, it is not strange that men begin to lose confidence in free institutions, and that the fame of the great Republic is turnished throughout the civilized world. To remedy these exils we insist that the receipts and expenditures of the Government shall be diminished; that its patronage shall be curtical and all means of the Government shall be nd expenditures of the Government shall be iminished; that its patronage shall be curniled and all useless offices abolished; that that shall cease to usure functions to which it as no title; that official misconduct and fraud and corruption in elections shall be rigorously punished, and that public virtue shall be upheld, and want of it condemned, by the unical value of the avenue.

ipheld, and want of it condemned, by the unied voice of the people.

Resolved, That we condemn, without recrye, the late act of Congress granting addiional salarica, as unjust and unjustifiable,
and demand its immediate and unconditional
speal, and we denounce every member of
ongress, whether Republican or Democrat,
the supported the law or received and reriace the money procured thereby; and we
specially denounce the conduct of President
irant in using the influence of his high posiion for its passage, and whose official signaure made it a law.

e made it a law.
Resolved. That the act of the President in ting up by bayonet a Government in Lou-ana, not chosen by her people, and having title whatever to rule over them, was a fla-ant violation of her rights and of the Feder

I Constitution.

Resolved, That every Department of Gover-tion being in the hamls of the Republican arry, they are justly responsible for the evils not wrongs in the legislation and administra-ion of which the country complains.

Resolved, That, under the time-honored resolved. That, under the time-honored mocratic banner, with this declaration of neiples inscribed on its folds, weengage in conflict, and we carnestly appeal to patrice men of every class, without regard to parames or past difference, to unite with usterms of perfect equality in the struggle to cue the Government from the hands of discusting the parameter of t

Sarsaparillian Resolvent. Ready Relief and Perfect Pargative Pills, in written testimonials from all parts of the world, surpass in wonder themost extravagant miracles of enchantment. Physicians and medical rawn in all countries, pronounce these wonderful remedies a mysters, that meither their science of analysis or chemical skill can explain. True, these medicines effect the most marvelous cures, and restore the dying to life, and relieve the most wretched pain-suffering victim of his tertures, in from one to ticensly minutes, and although they know some of the ingredients of their composition, and Dr. Radway has published their formula (withholding only two newly discovered roots), still both French, German, English and American chemists and pharmaceutists utterly fail with the same ingredients as prepared by them. The great success, which these wonderful remedies are constantly achieving, lies in the great secret of combining the ingredients together, after exercising due care in selecting the pure and genuine roots.

Such wonders of Modern Chemistry 4s the

Such wonders of Modern Chemistry 4s the SARSAPARILLIAN RESOLVENT, READY BELIEF & RADWAY'S PILLS, are without parallel in the flistory of Medicine, for there are some infirmities and diseases that are considered as incurable, and sure death. Lugne word, any disease—no matter under what name designated, that is nourished or increased by bad, impure, depraved, weak, thin, watery or poisoned blood—can be cured by RADWAY'S SARSAPARILLIAN RESOLVENT

Radway & Co. have never claimed one-bundreth part of the curative virtues for their remedies as is ascribed to them by the people who have used them: for bear in mind, only such diseases and complaints as Dr. Radway, after successful treatment with their rancdies knew they would cure, were enumerated in their curative list, so that many of the extraor-dinary cases that have been reported awaken-ed as much astonishment in the discovery of their remedial agents as in those who had been researed from death, and made whole and sound.

Asmany persons discredited their extraordinary power, from the fact of their disappointment in the use of other advertised remedies—and some believed it impossible for simple medicines made only from vegetable substances—roots, herbs, &c.—should possess such marvelous power. Yet they can readily comprehend that the simple grasses of the field, after undergoing the chemical process of distillation designed by nature in the cow and churn, furnishes us with butter—certainty the most abundant fat, caloric or heat-making—bone, tissue, muscle, sinew and blood-making constituents for the human body.

But when those people who first doubt the But when those people who first doubt the efficacy of these remedies commence their use, they become their most carnest advocates.

It has cured over twenty persons of Ovarian Cysts and Tunors, as well as Tumors in the Bowels, Uterus, Womb, Liver, Dropsical Effusion, Ascites, and Calculous Concretions.

Tumor of 12 Years' Growth Cured by Radway's Resolvent. Beverly, Mass., July 18, 1869.
Dr. Radway: I have had Ovarian Tumor in the ovaries and bowels. All the doctors said there was no help for it. I tried everything that was recommended, but nothing helped me. I saw your Resolvent and thought I would try it, but had no faith in it, because I had suffered for 12 years. I took six bottles of the Resolvent, one box of Radway's Pills, and used two bottles of your Ready Relief, and there is not a sign of a tumor to be seen or

than I have for 12 years. The worst tumor was in the left side of the bowels, over the groin. I write this to you for the benefit of others. You can publish it if you choose.

HANNAH P. KNAPP. AN IMPORTANT LETTER From a prominent gentleman and resident of Cincinnati, Ohio, for the past forty years well known to the newspaper publishers through-out the United States;

out the United States:

New York, Oct. 11th, 1870.

Dr. Radway—Dear Sir: I am induced by a sense of duty to the sufering to make a brief statement of the working of your medicine on myself. For several years I have been afflicted with some trouble in the bladder and urinary organs, which some months ago culminated in a most terribly afflicting disease, which ary organs, which some months ago cummated in a most terribly afflicting disease, which the physicians all said was spasmodic stricture in the uretha, as also inflamation of the kidneys and bladder, and gave it as their opinion that my ago—73 years would prevent my ever getting radically cured. I had tried a number of physicians, and had taken a large quantity of medicine, both allopathic and homeopathic, but got no relief. I had read of astonishing cures having been made by your remedies; and some four months ago I read a notice in the Philadelphia Saturday Evening Post of a cure having been effected on a person who had long been suffering as I had been. I went right off and got some of each—your Sarsaparillian Resolvent, Ready Relief, and Regulating Pills—and—commenced taking them. In three days I was greatly relieved, and now feel as well as ever.

TAR CORDIAL!

NATURE'S GREAT REMEDY

THROAT AND LUNGS!

POST-HOLE BORER.

It is gratifying to us to inform the public that dr. L. Q. C. Wishard's Pine Tree Tar Cordial, for Threat and Lung Diseases, has gained an envising reputation from the Atlantic to the Pacific coast, and from thence to some of the first families or Europe, not three the press alone, but by persons throughout the States actually benefitted and curved at his office. While he publishes less, so say our reporters, he is unable to supply the demand. It gains and holds its reputation—

First. Not by stopping cough, but by loose coming and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes, exhield curses irritation. Second. It removes the cause of irritation (which produces cough) of the mucous membrane and bronchial tubes, exhield curses irritation. Second. It removes the cause of irritation (which produces cough) of the mucous membrane and bronchial tubes, exists the langs to act and throw off the unhealthy secretions, and purifies the blood.

Third. It is free from squills, lobelia, ipecae and option, of which most throat and lung remedies are composed, which allay congainly, and disorganize the stomach. It has a southing effect on the stomach, it has a southing effect on the stomach, are on the liver and kidneys, mad jyanphatic and nervous regions, thus reaching to every part of the system, and in its invigorating and purifying effects it has gained a reputation which it must hold above all others in the market.
